EXPERIENCE

Editor

Revista Piceras

Jan 2018 – Ongoing Medellín, Colombia

- Edited the first number of the scientific communication magazine Piceras of Universidad EAFIT
- Gathered and edited content for next publications
- Established the content profile as a democratic one
- Adapted the content into a web microsite https://bit.ly/2Ge43qY

International Scholar

Purdue University

Aug 2018 – Dec 2017 West Lafayette, Indiana, USA

- Through the understanding of the ecology, evolution and behavior of Túngara frogs (*Engystomops pustulosus*)I designed an experiment to test different hypotheses related to the sexual preferences of Túngara females that might be modulated by the parasite *Trypanosoma tungara*.
- Supported graduate students in different projects under the supervision of Dr. Ximena Bernal
- Managed the frogs room and keep the best frog's health conditions
- Took care of frogs infected with BD (*Batrachochytrium dendrobatidis*) using a temperature-based treatment
- Obtain different sets of data using ImageJ, Raven pro, and other softwares
- Started to develop my own project related to animal communication with the mosuquito's *Uranotaenia lowii* system

Tutor

Universidad de los Niños Eafit

Jul 2015 – Dec 2015 Medellín, Colombia

- Prepared myself theoretically in a subject through a meeting with a researcher and a series of documents
- Prepared the materials for the workshop according to the age of the group of kids
- Arranged the meeting with the kids in the university inviting them to attend the workshop with a particular question
- led the workshops about research questions stated at the begining and tryed to spark some light on kids to achieve their own answers
- Reviewed immediately the workshops of the day with other tutors and get feedback from mentors

B.S THESIS

***Plukenetia volubilis* non-paternal oDNA transmission: a cytological diagnosis of pollen grains and a phylogenetic approach assessing Colombian cultivars cpDNA markers variation**

LIFE PHILOSOPHY

"Do not fear failure but rather fear not trying."

AREAS OF INTEREST

Plant biology | Animal biology | Evolution | Bioinformatics | Ecology | Host-Parasite interactions | Coevolution | Phylogenetics | Microscopy | Animal behavior | *Bacillus subtilis*

SKILLS & STRENGTHS

Programming | HPC | Reading & writing skills | Scientific thinking | Data science

Motivator & Leader | Team work | Adaptation | Innovative | Creative thinking | Curiosity

EDUCATION

MSc. in Biosciences

Universidad Eafit

July 2019 – ongoing

Esp. in Bioinformatics

UC. San Diego

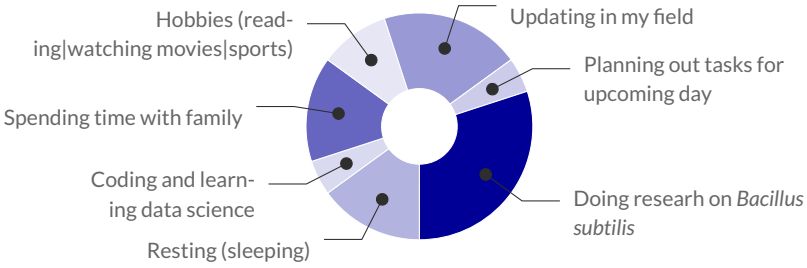
January 2019 – July 2019

B.S. in Biology

Universidad Eafit

January 2014 – December 2018

A DAY OF MY LIFE



CERTIFICATIONS

Scientific Communication
Bioinformatics
